# Significant Benefits and Savings

## **HUGE AMOUNT OF SAVINGS**

Anzer LIS, DICOM and accounting system can replace

## **HUGE AMOUNT OF TIME SAVING**

Improve Turn Around Time and increase the hospital revenue

## **27 DIGITS FINANCIAL CODE**

No manual entry for cashier and accountant

## **HIMSS EMRAM LEVEL 7**

Readiness and Efficient Digital Adoption

## **COMPLETELY PAPERLESS**

Paperless environment with efficient hospital work flow

## **LIS COST SAVING**

Savings \$\$\$ from USD 30,000 to 120,000 for LIS purchase

## **PACS COST SAVING**

Savings \$\$\$ from USD 50,000 to 1.5 Million for PACS purchase

## **FILMS USAGE COST SAVING**

Savings \$\$\$ from USD 500 to 10,000 for films cost

## **ACCOUNTING SOFTWARE SAVING**

Savings \$\$\$ from USD 3,000 to 10,000 for Accounting Software

## **PAPER COST SAVING**

Savings \$\$\$ from USD 5,000 based on hospital site

# Who is ANZER?

## Almost 40 years Experienced

- Healthcare IT World Wide experiences

## Supports Regional Accreditation

- Compliance with regional guidelines and standards

## Microsoft Window Based

- Safe and secure application

## World Accreditation

- Comply with JCI/ ACI

# ANZER EHR System with Standard Hospital Workflow

# VISION

- **Anzer EHR System will be the leading edge of EHR System for Medical Professionals and Healthcare Professionals**

# MISSION

- **Provide an artificial intelligence based EHR Software to hospitals and clinics**
- **Provide accurate statistical data for research and development to improve the Healthcare System**
- **Provide International quality services and supports to the hospital**
- **Bring the hospital to HIMSS EMRAM Level 7**
- **Provide IT/ Clinical support to meet your needs**

# ORDER ENTRY

## Order Set

Ability to create order sets combining orders/examinations from different departments

## Real Time Processing

Orders for Diagnostic Imaging, Lab, Pharmacy are transmitted in real time for processing

## Effectiveness

Seamless integration to all ANZER applications

## Easy to Integrate

Order entry can be integrated with all other modules, or it can stand alone or a mix

Dec 28, 2021 09:38 AM by Dr adeline, adeline (Doctor Note)

- Migration of pain to the right lower quadrant
- Anorexia
- Nausea and vomiting present
- Tenderness in the right lower quadrant
- Rebound pain temperature
- Patients with a score of  $\geq 7$  points have a high risk of appendicitis. Patients with a score of  $< 5$  points have a very low risk of appendicitis.

Physical examination

Patients often find the right lateral decubitus position with slight hip flexion as the position of maximal comfort. The abdomen is generally soft with localised tenderness at or about McBurney's point.1

The patient is often flushed, with a dry tongue and an associated faetor oris. A difference between axillary and rectal temperature higher than 1 °C indicates pelvic inflammation that may be due to appendicitis or other pelvic inflammation.

Abdominal examination reveals painful tenderness and muscular rigidity in the right iliac fossa. Rebound tenderness is present, but should not be elicited to avoid distressing the patient. Patients often find that movement exacerbates the pain, and if they are asked to cough the pain will often be limited to the right iliac fossa.

Percussion tenderness, guarding, and rebound tenderness are the most reliable clinical findings indicating a diagnosis of acute appendicitis. Voluntary muscle guarding in the right lower quadrant is common and usually precedes the tenderness.

Central scheduling, schedule for all departments

# Operation Theatre and Central Scheduling Management

## Operation Theatre

- OT booking, OR registration
- Standard operations terminology master data, Standard pricing for operation procedures, surgeon fees defined by MOH
- Consent forms, safety checklists, pre-op, intra-op and post-op checklist, clinical notes for anesthetic, surgeons and nurses
- Provide OR statistical reports, Clinical and Financial reports such as number of operations based on procedures, turnaround time analysis reports, surgeon fees reports depending on performed OR procedures

## Central Scheduling

- Resources master data according to hospital (Doctor's available time, Instruments, OR rooms, Block time during fumigation process)
- Provide various appointment types setup by department (OR booking, OPD booking, Day Surgery Booking)
- Centralized or Decentralized booking flow
- Integrated with ANZER patient portal app, patient will book from their mobile application
- All kinds of appointment reports (also customizable)

# Radiology Management and Laboratory Management

## Radiology Management

- Doctors' orders arrive at Radiology Work list screen
- Orders can be filtered by department (X-Ray, CT, MRI). Filtered by target date
- Urgent alerts, clinical notes, payment info showing on the screen
- Assign preferred radiologist
- Auto film usage, medication usage reduction by the system
- Referred fees, reading fees auto-generated by the system based on ordering doctor, assign radiologist
- Daily, Monthly, Yearly statistical/ financial/ Clinical reports

## Laboratory Management

- Orders can be filtered by Lab groups (Biochemistry, Hematology, Histopathology). Filtered by target date
- Urgent alerts, clinical notes, payment info showing on the screen
- Auto default pathologist/ Microbiologist based on test group
- Specimen labeling, Specimen tracking, Result validation screen (closed loop LIS)
- Auto reagent usage, material usage reduction by the system
- Referred fees, reading fees auto-generate by the system based on ordering doctor, default pathologist
- Daily, Monthly, Yearly statistical/ financial/ Clinical reports
